PROJECT

Sorting Visaulization

- Developed a sorting visualization project in C++ using the SDL2 library to showcase various sorting algorithms visually.
- Implemented sorting algorithms such as Selection Sort, Insertion Sort, Bubble Sort, Merge Sort, Quick Sort, and Heap Sort
- Utilized SDL2's rendering capabilities to create an interactive graphical interface, allowing users to observe sorting algorithms in action.
- Demonstrated proficiency in algorithmic understanding, C++ programming, and graphics development through real-time visualization.

Portfolio

- This is my first project, "My PORTFOLIO," which I have created using HTML and CSS. I completed it in 6 days, creating a new page each day, such as home, contact, about, etc.
